Save **£50** until end of July with code **SAVE50**

Standard rate with Kit

£1189.00 - Includes a tomas®
Starter Kit with 2 sterile pins

KIT
WORTH
£850

Standard rate

£550.00 - excluding Starter Kit with pins

Postgraduate Trainee rate

£345.00

All prices are exclusive of VAT.

Gain all the fundamental and practical knowledge required to start using the tomas® TAD system.

Course Topics:

- Tomas® - More than a TAD
- Step by step insertion - best insertion sites
- Maximising success with TADs
- Biomechanics of anteroposterior anchorage
- Maxillary and mandibular space closure
- Sliding appliances: mesialisers and distalisers
- Correction of vertical problems
- Correction of transverse problems (MARPE)

Includes hands-on practicals.

“ I would highly recommend this course to practitioners aiming to provide a wider range of treatment options for their patients. Naeem provides a comprehensive guide to the placement and clinical application of Temporary Anchorage Devices, with particular reference to factors leading to success or failure of implant placement, and the biomechanical consequences of differential force application.

Dr Justin Evans

Specialist Orthodontist
